Northcote, Auckland, New Zealand | New Zealand Citizen

Summary

Junior Software Engineer specialising in TypeScript, React, and Node.js full-stack development. Brings analytical problem-solving and stakeholder collaboration skills from 8 years in local government, focused on building accessible, user-friendly applications that solve real-world problems.

Experience

Software Engineer Intern
Nov 2025 – Feb 2026

Harmoney
Auckland CBD, Auckland

- Built full-stack features using TypeScript, Next.js, and NestJS across front-end and back-end services.
- Identified and resolved bugs while actively testing for unintended interactions and validation inconsistencies.
- Implemented fixes against defined acceptance criteria, verifying changes met expected outcomes before submission.
- Planned and tracked personal project by creating a project milestone and breaking down work into phased tickets.
- Responded to QA feedback on bug fixes, addressing follow-up issues and ensuring fixes met expected standards.
- Collaborated with developers, testers, and product owners in an agile team using Git workflows and CI/CD pipelines.

Software Developer Bootcamp
Jan 2025 - May 2025

Dev Academy Aotearoa
Newmarket, Auckland

- Completed intensive 17-week full-stack development program covering JavaScript, TypeScript, React.js, Node.js, Express, SQLite3, REST APIs, Knex.js, and Vitest.
- Built Studio Ghibli Fan Wiki using React Router for multi-page navigation, consuming external REST API and implementing reusable component architecture.
- Developed Geared Up Great Walks companion app in 6-person agile team, implementing packing list management and user authentication with React frontend, Express API and test-driven development practices.

Associate Environmental Health Officer
Jun 2018 - Dec 2024

Auckland Council
Auckland CBD, Auckland

- Reduced monthly verification data errors from 40% to under 5% through improved data validation processes in Excel.
- Collaborated with diverse stakeholder groups to resolve data integrity issues and maintain process documentation.

Technical Skills
